Meet the challenges of climate change and make more of carbon markets

See inside to discover how you can benefit today from **FREE SETatWork guidance, tools and services!**

Sustainable Energy Technology at Work (SETatWork) is a two year programme that started in September 2008 offering assistance to European industries in:

- Gaining access to the carbon markets
- Improving energy performance in industry

How can SETatWork add value to your organisation?

SETatWork offers training activities, promotional activities and match making events for:

- Industries in the EU ETS
- Sustainable Energy Technology suppliers
- Buyers and providers of project credits
- CDM projects in Asia and South America

SETatWork also provides you with the essentials from other EU funded programmes dealing with energy efficiency in manufacturing and renewable energy.

How do I sign up to SETatWork? Where can I find more information?

SETatWork programme activities are free of charge.

Just register on our website to keep informed: www.setatwork.eu

For more information contact the coordinator at: info@setatwork.eu

or contact your country focal point, listed on the back of this flyer.

SETatWork helps you meet the challenges of climate change with FREE tools & services - try them online today!

The threat of climate change presents both society and industry with huge challenges. The project **SETatWork - Sustainable Energy Technologies at Work** aims to help meet these challenges through collaboration and partnerships between organisations in EU, Asia and South America, supported by the EC's Seventh Framework Programme (FP7).

Promote your sustainable energy technology products and services for free

With SETatWork you can rapidly reach hundreds of organisations across Europe that are actively looking for SET providers and EU ETS project partners. To promote your technology or service go to www.setatwork.eu/gp.htm and submit a case study. It's quick, easy and free, and your success stories will be widely publicised through the SETatWork network.

Are you on the SETatWork database? Be sure to add your Market Actor Information

If you are a SET provider, a carbon market broker or trader, finance company or consultant you can instantly increase your visibility by adding your details to the free SETatWork database.

Make sure you are on the list by completing the form at www.setatwork.eu/database/register.htm. This enables SETatWork to create a detailed profile of your products, services and experience, which can be matched with projects and organisations that approach SETatWork looking for proven SET providers.

Let SETatWork guide you through the carbon market maze

Future-proof your organisation - meet the challenges of climate change and make the most of carbon markets! Whether you want to buy or sell certificates, find the best sustainable energy technology for your business or discover better ways to reduce carbon emissions across the supply chain, our free online Assessment Tool will quickly guide you in the right direction. Try it at www.setatwork.eu/toolv3

Carbon dating! Find the perfect partner for your SET, CDM, JI or EU ETS project

Quickly complete a free partner matching form at www.setatwork.eu/pm.htm and SETatWork will connect your organisation's profile to partners looking for projects and projects looking for partners.

Don't miss out. Find out faster about the latest technologies and funding mechanisms

Take a few seconds to register for the SETatWork newsletter and you will receive regular updates on news, events, projects and networking opportunities covering EU ETS, SET, JI and CDM. Register for free today at www.setatwork.eu and help your organisation stay in step with the latest sustainable energy solutions and stay a step ahead of the competition.

SETatWork is supported by the European Commission under the Seventh Framework Programme (FP7). The views in this publication are those of the authors. Although best efforts have been made to ensure that the information contained herein is accurate, neither the European Commission nor the SETatWork Project are liable for any use that may be made of it.

It's all on the SETatWork Website at www.setatwork.eu

Material collected and created during the project is all available on the SETatWork website, including:

- **Overview of Energy Efficiency** and other Sustainable Energy Technologies in the EU ETS and CDM Markets
- **Match-making, Training and other events** relevant to energy efficiency and other Sustainable Energy Technologies (SETs) in the EU ETS, JI and CDM Markets
- **SETatWork Assessment Tool**, which will update and expand the already available T@W Assessment Tool to help you find the most economical option to answer your CO₂ emission problems, leading to reduction of emissions through investing in either internal or external projects
- **Database of Market Actors and Actions**, which will enable you to find Good Practice and other case studies, CDM project ideas and associated Technology and Service Providers that can assist you in implementing your in-house or external projects
- **Partner Matching Service** to support the match-making activities of the project and assist EU ETS companies in finding partners for CDM and JI projects
- **News and SETatWork Newsletters** providing updates on the project progress and highlighting key events and activities
- **EU ETS and CDM Country Profiles** highlighting the technology needs in EU ETS & CDM markets for SETatWork target countries.

Further information about the ongoing activities of the project
