

SETatWork at BrightGreen

Saturday 12th - Sunday 13th December 2009
Forum Copenhagen, Denmark - Stand No. 90

As part of the SETatWork - Sustainable Energy Technology at Work: Thematic Promotion of Energy Efficiency and Energy Saving Technologies in the Carbon Markets project, a stand [No. 90] has been booked at the Bright Green Exhibition, www.brightgreen.dk. Bright Green is organised by the Confederation of Danish Industry and takes place in Copenhagen, 12-13 December 2009, in connection with the climate conference COP15.

COP15
COPENHAGEN

The aim of the SETatWork intervention at Bright Green is to establish contacts between actors in the carbon markets. A series of events are planned for the stand. Visitors will also be able to collect information and speak to project partners about SETatWork's activities, as well as find out more about CDM projects, EU ETS projects and energy efficiency training, and sustainable energy technology and service providers in their country.

Email: info@setatwork.eu to make an appointment with the SETatWork team during Bright Green

Stand Programme - see www.setatwork.eu/events/091212brightgreen.htm for updates and presentations

Saturday 12 December 2009

10:00 - 12:00 Section 1: Africa (Presentations 11:00-12:00)

11:00-11:20	Africa	Overview of selected CDM Sectors - Energy Consulting Network (ECNet)
11:20-11:40	Africa	Presentation of Case Study - Instituto de Engenharia Mecanica Polo IST
11:40-12:00	Tanzania	Presentation of pCDM project at household level - Confederation of Danish Industries

12:00 - 14:00: Break

14:00 - 17:00 Section 2: European Union - Opportunities for Sustainable Energy Technologies in the Carbon Markets

14:00-14:20	Germany	Kewog ZREU
14:20-14:40	Sweden	KanEnergi
14:40-15:00	Portugal	Instituto de Engenharia Mecanica Polo IST
15:00-15:20	Slovakia	Energy Centre Bratislava

15:20 - 15:30 Break

15:30-15:50	Bulgaria	Sofia Energy Centre (SEC)
15:50-16:10	Poland	Primum Polska
16:10-16:30	Italy	Energia Transporti Agricoltura/ETA Florence
16:30-16:50	Denmark	Energy Consulting Network (ECNet) & Confederation of Danish Industries (DI)

Sunday 13 December 2009

10:00 - 12:00 Section 3: Asia - Opportunities for Sustainable Energy Technologies in the Carbon Markets

10:00-10:30	Thailand	Center for Energy Environment Resources Development (CEERD)
10:30-11:00	India	The Energy and Resources Institute (TERI)
11:00-11:30	China	Zhejiang Energy Research Institute (ZERI)

11:30 - 13:00: Break

13:00- 16:00 Section 4: EU and the rest of Europe

14:00- 16:00	Europe	Enterprise Europe Network

The venue for Bright Green is the historical exhibition Venue "FORUM" in central Copenhagen. SETatWork is on **Stand No 90** to the right of the main entrance – as illustrated below:

Position of SETatWork Stand (No. 90)

Address

Forum Copenhagen , Julius Thomsens Plads 1, DK-1925 Frederiksberg C
 Tel. +45 3247 2000, E-mail: info@forumcopenhagen.dk

Metro

The Metro goes directly to Forum, only 2 minutes to Nørreport, a 12-minute ride to the COP15 venue (Bella Center). For more information about the Metro visit the official website at www.m.dk

Bus lines

Bus lines 2A, 67, 68 and night bus 82N go to Forum Station. For more information, please go to the website www.movia.dk

Nearest S-train station: Vesterport Station.

Parking

Forum is located in the Frederiksberg parking zone, where parking is free for the first two hours. If you need to park for a longer period of time, you must purchase an all-day parking permit. This permit can be purchased at the coat check. In the Frederiksberg parking zone parking is free on Saturdays after 3 pm and all day on Sundays. On the corner of Blågårdsgade and Åboulevarden is "Det Grønne P-hus". Parking only DKK 9 per hour. The parking garage is only a few hundred metres from Forum and is open 7 days a week. See more at www.europark.dk

The SETatWork project enables you to rapidly reach hundreds of organizations across Europe that are actively looking for Sustainable Energy Technology providers or EU ETS/CDM project partners. It's quick and easy and completely FREE!

1. Are you on the SETatWork database? Be sure to add your Market Actor Information

If you are a sustainable technology provider, you can instantly increase your visibility by adding your details to the free SETatWork online database at www.setatwork.eu/database. Make sure you are on the list by completing the Registration form at www.setatwork.eu/database/register.htm enables SETatWork to create a detailed profile of your products, services and experience, which can be matched with projects and organizations that approach SETatWork looking for proven SET providers.

2. Promote your expertise to new customers with a SETatWork case study

To promote your technology or service go to www.setatwork.eu/gp.htm and submit a Good Practice case study. It's quick, easy and free, and your success stories will be widely publicised through the SETatWork network and be visible to hundreds of companies who visit the SETatWork website seeking sustainable energy solutions.

3. Carbon dating! Match your products & services to SET, CDM, JI or EU ETS projects

Quickly complete a free partner matching form at www.setatwork.eu/pm.htm and SETatWork will connect your organisation's profile to sustainable energy projects looking for technology and service providers.

4. Find out faster about the latest SET projects and carbon market opportunities

Take a few seconds to register for the SETatWork newsletter and you will receive regular updates on news, events, projects and networking opportunities covering EU ETS, SET, JI and CDM. Register for free today at www.setatwork.eu and be among the first to know about new opportunities for Sustainable Energy Technology product and services.

Enterprise Europe Network

Representatives from **Enterprise Europe Network** and the Network's **Sector Group Intelligent Energy** will be present during Bright Green and, in particular, will host the stand between 2 pm and 5 pm on Sunday 13 December.

Enterprise Europe Network is the European Commission's network of contact points in more than 40 countries (EU member states, candidate countries, members of the European Economic Area and other participating third countries) providing information and advice to companies on EU matters, in particular small and medium enterprises (SMEs). For further information see: www.enterprise-europe-network.ec.europa.eu

The **Sector Group Intelligent Energy** comprises some 70 members from the network, representing most EU Member States, candidate and associated countries. The members of the group offer necessary guidance, contacts and information in order to find European business and technology partners for successful technical cooperation, business agreements and European research projects in the energy sector.

A number of offers and requests from the network's **Technology and Business Cooperation Database** will be available at the stand, covering biogas, biomass and biofuels, photovoltaics and solar thermal, hydropower and wave energy, wind and geothermal energy, renewable energies for energy efficient buildings, fuel cells and hydrogen technologies, energy efficiency, energy production, storage and distribution.
