Workshop Participant Information Form

Participating on: Feb. 25th [x] 26th [x] as speaker [x] opening address []

Contact person: Mr. Anat Prapasawad

Organisation: Advance Energy Plus Co., Ltd.

Position: Managing Director

Address: Forum Tower 184/177 Fl28. Rachadaphisek Rd., Huaykwang, Bangkok 10310
Thailand

Telephone: +66 (0) 2645 3347-8

Fax: +66 (0) 2645 3349

Email: anat_p@aep.co.th

Web: www.aep.co.th

Short description of the organisation:

(from website)

AEP work with international energy companies, major lending institutions, energy distributions and consumers, and governments to help them evaluate change and capitalize on opportunities.

Short description of the products and/or services:

(from website) CDM Facilitation Services:

- Preparation of the Project Idea Note (PIN) suitable for different buyers or proposes
- Identifying suitable buyers with most suitable terms and conditions
- Conduction of the Project Design Document (PDD) regarding the UNFCCC guidelines
- CDM's Public Hearing arrangement
- Seeking for loan approval and/ or equity partner from both local and international source
- CDM Validation support
- Document preparation for DNA approval
- Monitoring and Supervision of project implementation

Short description of the kind of co-operation or type of partners wanted:

SPEAKER - TITLE OF PRESENTATION

How the CDM can help finance projects and/or technologies in Thailand

Workshop Participant Information Form

Participating on: Feb. 25th [x] 26th [] as speaker [x] opening address []

Contact person: Mr. Somkiat Chitphromphan

Organisation: Agrinergy Limited

Position: Representative for Thailand

Address: 27/67, Moo 6, Ngam Wong, Wan Road, Thung Song Hong, Lak Si, Donmuang,
Bangkok 10210 Thailand

Telephone: +66 (0) 81 3517275

Fax: +66 (0) 2954 4619

Email: somkiat@agrinergy.com

Web: www.agrinergy.com

Short description of the organisation:

(excerpt from the Powerpoint)

Agrinergy Limited is a UK registered company, incorporated in April 2003 to focus solely on CDM projects.

Operating in UK, India, Thailand, Indonesia, China and Argentina. Will incorporate a Thai company in January 2008.

Mr. Somkiat Chitphromphan has experience both in government and private sectors on both technical and economic sides in various industries such as cement, petrochemicals, consumer and agricultural products.

Short description of the products and/or services:

(excerpt from the Powerpoint)

- Offer end to end solution for CDM projects
- Create and monetize the carbon asset

Agrinergy has proven track record in CDM market:

- Development of methodologies (3 methodologies approved, RE/WHR/blended cement 1 in approval process, fuel ethanol)
- Registered 19 projects, 7 pending, 100 projects under development
- Geographical diversity, 20 employees

Short description of the kind of co-operation or type of partners wanted:

SPEAKER - TITLE OF PRESENTATION

The Development of CDM Projects

Workshop Participant Information Form

Participating on: Feb. 25th [] 26th [x] as speaker [x] opening address []

Contact person: Dr. Ulrike E A Leroff

Organisation: Asia BioGas Co., Ltd.

Position:

Address: Suite #1704-5, 17th Floor, The Millennia Tower, 62, Lang Suan Rd., Lumpini, Pathumwan, Bangkok 10330, Thailand

Telephone: +66 (0) 2651 8625-7 ext 18

Fax: +66 (0) 2651 8628

Email:

Web: www.asiabiogas.com

Short description of the organisation:

asiaBIOGAS Co. Ltd. (ABC) is Southeast Asia's largest biogas systems design, engineering, construction and operating company. Headquartered in Bangkok, Thailand, the firm currently operates in Thailand, The Philippines, Vietnam, Indonesia and Malaysia.
 Focusing primarily on renewable waste to energy generation, asiaBIOGAS designs, builds and operates power plants which convert carbon based industrial waste into methane and electricity.

Short description of the products and/or services:

The company assists the developing countries to achieve the sustainable development through projects which mitigate greenhouse effect.
 The captive project which reduces emission is Korat Waste to Energy (KWTE)*, the first project in Thailand registered at UNFCCC.
 Moreover, the company also has many biogas projects which can mitigate emission from CO₂ and CH₄ in Thailand.

(* see GP Case #12)

Short description of the kind of co-operation or type of partners wanted:

SPEAKER - TITLE OF PRESENTATION

Experience from establishing a biodigester plant and selling CERs under the framework of the CDM

Email: Kah@dem.dk

Web: www.danishmanagement.dk

Short description of the organisation:

(from website)

Danish Energy Management provides Energy Consultancy within the areas of Policy, Regulation, Finance, Institutional Development and Information and Communication. Danish Energy Management places a major focus on energy projects worldwide, mostly within the field of Renewable Energy (RE), Energy Efficiency (EE), Demand Side management (DSM), Combined Heat and Power Technology (CHP), Rural Energy, Energy policy and Energy Legislation.

These included the implementation of several biomass-fired district heating systems, installation of natural gas fired power plants as well as fuel conversion and heat infrastructure modernisation.

Short description of the products and/or services:

(from website)

Here is a list of some of the most representative assignments performed over the last years in Thailand:

- First Asia ESCO Conference/Japan ESCO Association (www.asiaESCOconference.org)
- Community-Based Tourism: Strategic Environmental Assessment/European Union project
- Case Study of Thailand's Energy Efficiency Revolving Fund/Energy Futures Australia
- Economic Literacy Training for Thai Grassroots and Labor Organizations/American Center for International Labor Solidarity (ACILS)
- Background Report on Energy Efficiency Potential/Joint Graduate School on Energy and Environment (JGSEE)
- Identification/Formulation Mission for CDM activities in Thailand
- Impact of Energy Conservation, DSM and Renewable Energy Generation on EGAT's Power Development Plan (PDP)
- Benchmarking of Electric Motor Efficiency in Five Asian Countries
- Technical Assistance on Project Development for Clean Development Mechanism in Thailand
- Development of An Energy Audit and Management Scheme for SME
- Development of an Energy Efficiency Promotion Strategy for Industries and Buildings
- Adjustment to the Building Energy Code
- Community-Based Tourism Strategic Environmental Assessment
- Green Vision for Thailand's Energy Future
- Review of Partnership Facility Programme

Web: www.aee-australia.com.au

Short description of the organisation:

(from website)

In 2002, Austrian Energy & Environment (Australia) was awarded two contracts to supply almost identical biomass cogeneration power plants in central Thailand, one to Dan Chang Bio-Energy Co. Ltd * in Suphan Buri Province and a second one to Phu Khieo Bio-Energy Co. Ltd in Chaiyaphum Province. Both companies are subsidiaries of Mitr Phol Sugar Corp., Ltd, which is Thailand's leading sugar manufacturer.

(* see GP Case #11)

Short description of the products and/or services:

(from website)

AE&E(AU) scope of supply includes the turnkey design, supply, manufacture, delivery, installation and commissioning of the cogeneration power plants.

Both plants were supplied and constructed concurrently in a total of 23 months from the date of order. After a period of commissioning trials, the plants entered into commercial operation in mid 2004.

Web: www.organics.com

Short description of the organisation:

(from website)

- Landfill gas utilisation
- Landfill gas collection and safe disposal
- Leachate collection and treatment
- Organics designs, manufactures and installs environmental protection systems.

Short description of the products and/or services:

(from website)

Our primary product ranges cover systems and equipment for the collection, use and/or disposal of landfill gas and the treatment of leachate. We supply high quality, low emission flarestacks as well as a range of dedicated leachate treatment plant designs, including unique thermal technology for the stripping of ammonia from leachate and general wastewaters.

Secondary product areas include distributed monitoring systems, activated carbon filters for the treatment of VOC's, pressure swing adsorption plant using molecular sieves and a range of specialised products such as gas scrubbers, multi-stage air-classifiers and mixer-settler units.

Short description of the organisation:

(from website)

The company was established as a full-service company that provides innovative and distinctive "one-stop" environmental management services to its customers and industrial clients.

Short description of the products and/or services:

(from website)

The company's services include industrial waste and waste material disposal; and the transportation of hazardous and non-hazardous wastes to safe disposal sites where wastes will be incinerated in a cement kiln, or disposed in sanitary and secure landfills. Wastes deemed useful will be recycled and converted into lubricant oil, solvents, or scrap drums. In addition, Teewasu also provides environmental consultation programs such as environmental impact assessment, industrial waste management, regulations and operations training in accordance to environmental standards, and implementing pollution treatment systems such as water and air pollution treatment.
