## BANKS / FINANCIAL INSTITUTIONS

## Workshop Participant Information Form

Participating on: Feb. 25th [ ] 26th [ x ] as speaker [ x ] opening address [ ]

Contact person: Ms. Nancy Choophungart

Organisation: Agence Francaise De Developpement (AFD)

Position: Senior Investment Officer

Address: 14th Floor, Abdulrahim Place, 990 Rama IV Road, Silom, Bangkok 10500 Thailand

Telephone: +66 (0) 2636 1235 ext 136, 636 1242 (Direct)

Fax: +66 (0) 2636 1247

Email: choophungartn@groupe-afd.org

Web: www.afd.fr

### Short description of the organisation:

(from website)

The French Development Agency (AFD) is a financial institution that is at the heart of France's Development Assistance policy. Its mission is to finance development. Thanks to the broad line of financial tools that it has been able to engineer and enhance, AFD supports public authorities, the private sector and local associate networks, to implement a wide range of social and economic projects. AFD's actions in favor of economic growth and preservation of the environment fall directly within the framework of the Millennium Development Goals (MDGs) set out in the year 2000 by the United Nations.

### Short description of the products and/or services:

### Short description of the kind of co-operation or type of partners wanted:

SPEAKER - TITLE OF PRESENTATION

*Solid municipal waste projects from the lender's point of view*

## Workshop Participant Information Form

Participating on: Feb. 25th [ x ] 26th [ x ] as speaker [ ] opening address [ ]

Contact person: Mr. Vongsak Angoonsuthipan

Organisation: Bank for Agriculture and Agricultural Cooperatives (BAAC)

Position: Director of Crop Credit Business Division

Address: 469 Nakornsawan Rd., Dusit, Bangkok 10300, Thailand

Telephone: +66 (0) 2281 4446, +66 (0) 2280 0180 ext. 3230

Fax: +66 (0) 2282 1339

Email:

Web: <http://baaceng.baac.or.th/index.php>

### Short description of the organisation:

(from website)

In 1947 the Bank for Cooperatives was established to serve as a source of funds for the cooperatives that existed in Thailand at that time. The Bank carried out its lending operations until 1966, when it was replaced by a new Bank.

The Bank for Agriculture and Agricultural Cooperatives (BAAC) is a state enterprise under the jurisdiction of the Ministry of Finance

### Short description of the products and/or services:

(from website)

The BAAC's mission is to extend credit more widely, directly to individual farmers as well as through farmer institutions.

### Short description of the organisation:

(from Powerpoint)

In the emissions markets established under the Kyoto Protocol, Deutsche Bank:

- is involved in over 50 projects with total expected reductions of over 185m tonnes CO<sub>2</sub>e
- has experience of a wide range of methodologies in a wide range of jurisdictions
- leveraging extensive local relationships and expertise via Deutsche Bank's extensive branch network

Deutsche Bank plays a significant role in the secondary Kyoto emissions reductions markets:

- market-maker to all major emissions brokers and emissions traders
- provides a wide range of value-added structured emissions products for compliance buyers and voluntary buyers, including "guaranteed delivery certificates"
- provides a wide range of related services such as emissions certificate accounts, credit facilities etc.
- provides emissions reductions investment products to institutional and retail investors, including cash-settled derivatives

In the European Union Emissions Trading Scheme (EU-ETS), Deutsche Bank:

- is a major market-maker and active trader of EUAs
- is able to leverage an extensive European power and energy trading business
- provides a wide range of value-added structured emissions products related to power and energy
- works closely with the EC, member states, and industry organisations on the ongoing development and implementation of EU-ETS policy and practice

Organisation: KfW Forderbank

Position: Representative KfW Carbon Fund

Address: KfW Office New Delhi, 21, Jor Bagh New Delhi, 110 003 India

Telephone: +91 (11) 2464 4594

Fax: +91 (11) 2464 1203

Email: usha.rao@kfw.de, usharao68@gmail.com

Web: www.kfw.de

### **Short description of the organisation:**

(from website)

Since mid-2004 KfW Bankengruppe has been active in the carbon market with its Carbon Fund.

A facility for preparation of documents has been set up and KfW Bankengruppe is launching the KfW Carbon Fund as a purchase programme for project-based emission certificates according to the flexible mechanisms of the Kyoto Protocol. Participating enterprises can fulfill their commitments under the ETS at a lower cost.

At the same time, the purchase of emission certificates generates additional cash flow for these projects. This encourages investments in climate protection, promoting the transfer of modern technologies and supporting sustainable development in developing and industrializing countries

### **Short description of the products and/or services:**

(from Powerpoint)

Preferred Project Types and Criteria:

- Minimum of 30,000 CERs p.a. (bundling of smaller projects)

Project Types:

- Renewable Energy (Wind Power, Biomass, Hydro Power, Solar, Geothermal)
- Energy Efficiency (demand and supply side)
- Methane avoidance (e.g. Landfills or Coal Mines in combination with electricity production)

### **Short description of the kind of co-operation or type of partners wanted:**

Contact person: Mr. Rey A. Guarin

Organisation: Tradition Financial Services (TFS)

Position: CDM Business Development

Address: 51-55 Gresham Street, London, EC2V 7 HQ

Telephone: +44 207 198 1600

Fax:

Email: rey.guarin@tfsbrokers.com

Web: www.tfsbrokers.com / www.tfsgreen.com

### Short description of the organisation:

(from website)

TFS is one of the largest and most successful energy brokers in the World and is part of the Tradition Group, which employs over 2,200 people worldwide. Founded in 1985, TFS has built-up a global business in the power, gas, coal, weather and oil markets and since 2001 has been prominent in the renewable energy and emissions markets in Europe, the US and Asia Pacific.

In 2005 TFS began building a presence in Clean Development Mechanism (CDM), Joint Implementation (JI) and Voluntary Emissions Reductions (VER) which has led to a global team of 12 brokers now specializing in these, the newest of the environmental markets.

### Short description of the products and/or services:

(from Powerpoint)

Rey Guarin works for Traditional Financial Services UK where he forms part of the CDM project origination team covering South East Asia especially Philippines.

Rey Guarin has 19 years of experience as a banker in the Philippines, 10 years of which was practiced in a state owned development bank in the Philippines

His field of expertise is in the field of investment management, investment product development, investment banking and developmental program design and management. He has been one of the pioneers in mainstreaming carbon credits in the financial markets whereby one of his outputs as early as 2003, is the development and management of the first climate change program for a state owned bank.

### Short description of the organisation:

(from website)  
The Department of Alternative Energy Development and Efficiency formerly known as the "National Energy Authority" was established in 1953.  
The DEDE mission is to support and promote the clean energy production and consumption that is consistent with the situation of each area at cost effective and sustainable.  
Develop the clean energy technology commercially for both domestic consumption and export, including to create the co-operation network that will lead Thailand to an energy knowledgebase society so that the country economics will be secure and our people live in social with sustainable happiness.

### Short description of the organisation:

(from website)

Recognising that energy plays the crucial role in the development of the country, the Government decided to establish EPP0 (Energy Policy and Planning Office) to oversee and formulate policies and plans, as well as to make recommendations regarding energy measures, so as to effectively satisfy energy needs of the country and leads to a sustainable energy security.

Focus will be put upon developing energy from domestic sources, both short and long term, in order to reduce dependency on imported energy, which in turn will alleviate the problems of trade deficit and loss of foreign currency exchange.

Relying more on indigenous energy sources will also reduce the risk of energy shortage and improve the problem of the instability of energy prices

### Short description of the organisation:

(from website)

The Pollution Control Department was established in 1992 as result of the Enhancement and Conversation of the National Environment Quality Act B.E. (1992). Its mission is to control, prevent, reduce and eliminate pollution and to conserve and rehabilitate the environment conducive for human life.

To achieve it , 5 Strategies are used;

1. Reform the management system concurrent with change.
2. Develop a modern database system.
3. Increase the efficiency of environmental law compliance and enforcement.
4. Prevent and resolve pollution problems of the people.
5. Perform our duties to rehabilitate the environment by integrated management

### Short description of the organisation:

(from website)

Danish environmental assistance aspires to promote sustainable development in developing countries and reduce environmental pressure at global, national and local level.

Among the CDM project ideas that have been submitted to the embassy in Bangkok are projects that concern:

- Efficiency improvements in power plants
- Biogas and methane capture from effluent water
- Fuel switching from fossil fuels to biomass in power and heat generation
- Co-generation based on different kinds of biomass
- Ethanol projects, for mixing with gasoline
- Energy recovery from industrial waste
- Wind turbine project

The embassy has supported the development of Project Design Documents (PDD) for a number of projects. Among them:

- Green Power from Pig Farms
- Liquefied Petroleum Gas to Biogas Fuel Switching Project
- Wastewater treatment with biogas system in Starch Plant
- Biogas from Palm Oil Industry

### Short description of the organisation:

(from website)

The Energy for Environment Foundation (E for E), an independent not-for-profit organisation, was founded on May 1, 2000. The major objectives are to demonstrate and distribute the environment-conservation technologies and the methods of renewable energy that cause the very least pollution.

The organisation also aims to encourage the use of renewable energy from agricultural wastes to generate power.

The other important aspiration is to disseminate the knowledge, ideas and innovations pertaining to the environment conservation. It also organises activities that help make the most use of energy in accordance with the government's policies.

### Short description of the products and/or services:

(from website)

The "Biomass Clearinghouse" was established as a one-stop organisation to provide high quality and professional services to potential clients anything relating to biomass, i.e. information, promotion and utilisation.

It aims to promote wider use of biomass for generating power and producing other forms of energy by providing technical advices, financial consultation, knowledge and information about biomass and policy recommendations to potential developers, interested groups, governmental agents and general public.

### Short description of the organisation:

The Joint Graduate School of Energy and Environment (JGSEE) is an autonomous graduate school under the jurisdiction of the Council of the King Mongkut's University of Technology Thonburi (KMUTT) in Bangkok. Being established in 1998 the JGSEE acts as centre for education and research in the fields of energy and environment. The JGSEE operates as a consortium involving 5 different universities in Thailand. The research areas in principle are:

Energy policy, planning and management, Development and utilization of fossil and alternative fuels, Thermal process technology, energy efficiency, Renewable energies, clean energy technologies, Air pollution and atmospheric modelling, Carbon Cycle and Climate Change, Waste management

### Short description of the products and/or services:

JGSEE is interested in research cooperation with industries in the a.m. areas. The centre relies on a good laboratory and pilot plant background besides the scientific expertise.

Also consultancy is a possible way of cooperation, either directly with a client or in a consortium with different international partners. References are available.

### Short description of the kind of co-operation or type of partners wanted:

JGSEE can offer services and cooperate in following areas:

- Research cooperation
- Contract research
- Studies
- Consultancy
- Technology development

The type of partner depends on the scope and nature of the cooperation project.

### Short description of the organisation:

(from website)

Established in 1993, the Thailand Environment Institute (TEI) is a non-profit, non-governmental organization focusing on environmental issues and the conservation of natural resources in Thailand, Regional and Global levels.

By working closely with the private sector, government, local communities, other civil society partners, academia and in international circles with international organizations, TEI helps to formulate environmental directives and link policy with action to encourage meaningful environmental progress in Thailand.

### Short description of the products and/or services:

(from website)

A majority of TEI activities are carried out in the form of projects, covering a wide spectrum of environmental issues, ranging from national policy to grassroots level, and involving both public and private sector partners, as well as local communities.

### Short description of the organisation:

I am currently on leave without pay from the United Nations Economic and Social Commission for Western Asia (UN-ESCWA). UN-ESCWA is the regional arm of the United Nations secretariat in the Western Asia region. Among other social and economic goals, UN-ESCWA aims to promote regional integration and cooperation among ESCWA member states through joint programming on sustainable development and promotion of international treaties in the field of sustainable development and the environment.
