

## **Mr. Walter Gray III**

Walter Gray is the EcoSecurities Country Director for Thailand. Walter has participated in many aspects of the Emission Reduction market including experience as an independent renewable energy project developer, a consultant, and as an origination manager at EcoSecurities. Walter's academic background includes degrees in Mechanical Engineering from Brown University (Sc.B.) and Stanford University (M.S.). Walter began his career in the semiconductor equipment industry before moving into project development for the Renewable Energy & Emission Reduction markets. His current focus is helping clients find and monetize emission reduction and energy efficiency opportunities in their businesses.
